MEMORANDUM FOR: General Carter

When you were briefed by Mr. Garrison, the Director of Logistics, you requested further information on the number of safehouses and their use, a revised chart showing Agency real estate holdings and a revised chart on Agency materiel assets. This information is attached as follows: Tab A - Safehouses; Tab B - Real Estate Holdings; and Tab C - Materiel Assets.

25X1 Mr. Garrison and I would appreciate an opportunity to expand on this summary information. There are two important areas in which we need policy guidance: (1) Due to the fact that [] has a logistics system which parallels that of the Office of Logistics we do not have very complete information on its holdings; (2) In addition, we do not have very complete statistics on Agency proprietaries, of which there are quite a number involving considerable money.
